OBJECTIVE

MERN Stack Software Developer with 1+ year of hands-on experience across the full stack — from React.js front-ends to Node.js/Express APIs and MongoDB data layers. Seeking full-time Software Developer / MERN Stack Developer roles where I can contribute to production applications from day one

EDUCATION

Master of Computer Applications, Chandigarh University, Mohali, Punjab

Aug 2024 – Jun 2026

Bachelor of Computer Applications, DAV College, Abohar, Punjab

Sep 2019 – Jul 2022

SKILLS

Frontend	HTML, CSS, JavaScript, React.js, Bootstrap
Backend	Node.js, Express.js, RESTful API Design, JWT Authentication
Database	MongoDB (CRUD, Indexing, Data Modeling)
Other	Java (Basics, OOPs), Git, Docker

EXPERIENCE

Software Developer

Aug 2025 – Jun 2026

ChromeInfotech — Building-management web application (tenant service requests, conference room booking, facility queries)

- Implemented authentication and authorization using JWT (JSON Web Tokens) to secure user access and manage sessions across the application.
- Designed and maintained multiple RESTful API endpoints, enabling smooth data exchange across application modules.
- Collaborated with the development team to debug issues, optimize API performance, and ensure seamless communication between frontend and backend components.
- Used MongoDB for CRUD operations, indexing, and managing relational data structures.
- Contributed to core features of a facility-management platform, including tenant service requests and conference room booking.
- Tested API endpoints manually (e.g., via Postman) before integration with the front end.

PROJECTS

- **Employment History Management.** Developed a Node.js and Express.js application for securely uploading and managing employment documents, with authentication and file-storage libraries.
- **ServiceLink.** Developing a MERN-stack application connecting service providers (electricians, plumbers, etc.) with users seeking their services.

ACHIEVEMENTS

- Employee of the Quarter, ChromeInfotech — recognized for outstanding performance and contribution to the development team.

ADDITIONAL INFORMATION

- Certifications: Full Stack Development, UpGrad
- Languages: English, Hindi, Punjabi
